Full-stack developer with a passion for building powerful, beautiful apps that make life better, easier or more enjoyable for users. When I'm not coding, you can catch me on the trail with my dog or planning my next passport- required getaway.

## LANGUAGES, LIBRARIES & FRAMEWORKS

- HTML5
- CSS3
- JavaScript
- NodeJS
- jQuery
- Ruby on Rails
- AngularJS
- ExpressJS
- PostgreSQL
- Active Record
- MongoDB

## EDUCATION

### GENERAL ASSEMBLY

Washington, DC

#### Web Development Immersive

June 2015 – September 2015

Full-stack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development. My portfolio of individual and collaborative projects include the following:

#### Key Projects:

##### *Where Would Silvia Go*

- A Ruby on Rails application inspired by my friend Silvia, who always knows a great place to dine.

##### *WiFinder*

- An application to help users locate public WiFi in Washington, D.C. Created using Ruby on Rails, WiFinder was a collaborative project between Web Development and UX students at General Assembly.

##### *Elephant Trivia*

- Built with HTML, CSS and jQuery, Elephant Trivia tests your knowledge of elephants.

### WEST VIRGINIA UNIVERSITY

#### B.A., Multidisciplinary Studies

Morgantown, WV
